ENGLAND'S POOR.

Relief Proposed by Salvation Army General Booth.

COMMENTS ON HIS NEW BOOK.

He Suggests the Establishment of Houses of Refuge All Over the Kingdom and the Organization of Bands to Seek Out the Unfortunates and Minister to Their Wants—Other Foreign News.

LONDON, Oct. 21.—The press comment at great length upon the plan outlined by Salvation Army Gen. Booth, in his book "Darkest England and the Way Out of It," for the relief of the miserable poor of England. The opinion is generally favorable to a trial of the scheme. The most encouraging article on the subject is that of The Times, and even this is only mildly in opposition. The book has made a profound impression upon all classes, and to many it is a revelation of a condition of affairs undreamed of by them.

No one can read the work without feeling an uncomfortable sense of impending danger, and it is perhaps this which has moved everyone to cry out to Gen. Booth, in effect, "Go ahead and try your plan, and we will do all we can to help you." The suggestion of the author is, in brief, the establishment of houses of refuge all over the kingdom, and the organization of volunteer bands to seek out and rescue the unfortunate, and minister to their minds and bodies until employment is found. There are many ingenious details in the scheme, which could only have been devised by a man thoroughly experienced in the needs of the poor, and whose whole heart was in the cause.

Dillon and O'Brien in Paris.

PARIS, Oct. 21.—Messrs. Dillon and O'Brien witnessed the debate in the chamber of deputies yesterday. The president, on observing their presence, assigned them seats in the hall.

Mr. O'Brien was interviewed and said that he attached no importance to the reported dissensions said to disturb the Irish societies in the United States. Mr. O'Brien remarked that such reports were always rife just before the sending of an Irish mission to that country. Members of the delegation, he said, would take no part in rivalries of any kind; they went as the representatives of Mr. Parnell and the entire party in Ireland, and he felt certain they would have the support of the Irishmen in America, and that of the whole American people.

Gladstone's Popularity.

LONDON, Oct. 21.—Mr. Gladstone's journey from Hawarden to Edinburgh has been a triumphant tour. The popular demonstrations at every place where an opportunity to greet him was afforded, were so remarkable as to draw expressions of surprise from the Grand Old Man himself, accustomed as he is to crowds and applause. Much of this enthusiasm, no doubt, is evoked by admiration for Mr. Gladstone's personal qualities and the desire to do homage to a great Englishman soon, in course of nature, to pass away; yet the Liberals are confident that it also indicates an increased popularity of the political platform which their leader presents.

Baron Wissmann's Position.

BERLIN, Oct. 21.—Yesterday Baron Wissmann lunched with the kaiser. It has been settled that Herr Von Soden, governor of German East Africa, will avoid interference with the administration of the government there until the expiration of Baron Wissmann's appointment as imperial commissioner to East Africa. When that event occurs Herr Von Soden will assume the governorship of the German-African littoral, while Baron Wissmann will be assigned to the governorship of the central lake district.

Not Guilty as Charged.

EDINBURGH, Oct. 21.—The American, Stephen Smith, alias Helmes, said to have formerly been a Chicago barber, who was arrested in London in July for stealing the Duke of Edinburgh's jewels last May while his royal highness was conducting the opening ceremonies of the Edinburgh jubilee trade exhibition was tried yesterday, and a verdict of "guilt not proven" was rendered.

LONDON, Oct. 21.—An encounter is reported on the [illegible] side of the Turkish [illegible] between a large band of Albanians and a detachment of Servians, in which several of the latter were killed.

Russia's Influence.

LONDON, Oct. 21.—M. Hitrovo, Russian ambassador to Roumania, has formed a Russian club at Bucharest. He is known to be constantly intriguing to extend Russian influence in the country, but until now his operations have been conducted in secret. The formation of a club which is to be the headquarters of the Pan-Slavist movement is regarded as evidence that Russia believes her influence is now too strong to be successfully resisted by King Charles' government.

Foreign Notes.

Baron Wissmann has had a farewell audience with the emperor prior to his departure for East Africa.

The Arbeter Zeitung appeals to the delegates to the miners' congress at Vienna, beginning next Sunday, to agitate the demand for the eight-hour day.

Russia will begin immediately the construction of a new railroad between Bialystock, Poland, and the Austrian frontier, to be available for the mobilization of troops in case of war.

LAKE STEAMER BURNED.

Nine Lives Reported Lost by the Upsetting of a Small Boat.

DETROIT, Oct. 21.—Word has just been received of the burning in Lake Huron off Lexington, Mich., yesterday morning of the Lake Superior Transit company's freight steamer, Annie Young. Nine lives are reported to have been lost by the upsetting of a small boat.

There was a terrific sea running at the time the fire broke out. Seeing that there was no hope of saving the barge, the captain had the men lower the boats. The crew, consisting of about twenty men, crowded into two boats. One of the boats was missed in the heavy sea, but the other was picked up by the steam barge William Edwards and brought here.

Capt. Hugh Miller was in charge of the Annie Young, and his two engineers were in the rescued party, and they chartered the tug Kittie Haight and have gone back to where the burning barge was abandoned to look for the missing small boat and its crew of nine men.

The Annie Young left Port Huron at 6 o'clock yesterday morning with a cargo of coal and general merchandise for Escanaba and Gladstone. She was owned by the Anchor Transportation Company, of Erie, Pa., was built in 1869 and valued at $30,000. She was a mass of flames when Capt. Miller and the crew with him in the lifeboat pulled away from her, and she undoubtedly went to the bottom.

A later special to The News from Port Huron, Mich., says: When the steamer Annie Young caught fire the captain and crew took to the boats, nine going in one boat and thirteen in the other. The thirteen were picked up by the steamer Edward Smith, but the other boat was upset and all its occupants drowned. Among the lost were: George McCanna, of Port Huron, who only shipped yesterday morning; J. Connolley, J. Crosby, T. Gallagher and George Connolley.

TOOK HIS OWN LIFE.

A Noted Architect Ends His Existence With a Pistol.

WASHINGTON, Oct. 21.—A. B. Mullet, who was supervising architect of the treasury from 1865 until 1874, committed suicide at his home here about 6 o'clock yesterday evening, by blowing his brains out with a pistol. Melancholia, with suicidal intent, the result of business reverses of late years coupled with ill-health, undoubtedly led up to the rash and fatal act.

Mr. Mullet was born in England fifty-six years ago. He came to this country when a boy and was appointed to a clerkship in the supervising architect's office by Secretary Chase in 1862. Subsequently he was promoted to the position of supervising architect, a position he held until 1874, when, on account of dislike to Secretary Bristow, he resigned.

Mr. Mullet designed the war, state and navy department buildings in Washington, as well as a number of other public buildings in New York, St. Louis, Cincinnati, Portland, Me., and other cities.

TORPEDO BOAT LOST.

A Severe and Disastrous Storm Off Nova Scotia Coast.

HALIFAX, N. S., Oct. 21.—The torpedo boat which was recently lost at sea, and which was picked up by the American schooner Samuel R. Crane, has again been lost. The warship Buzzard was sent from here to North Sydney to tow the boat here. She started early Friday, and that same night encountered a very severe gale.

During the height of the storm the torpedo boat broke loose and was totally lost, breaking in two. The officers of the Buzzard say it was the worst storm they ever encountered, and at one time it seemed as if their own ship would succumb. As it was she was badly damaged, losing her jib boom and foretopmast. The Crane has been awarded £500 for her trouble in towing the torpedo boat into North Sydney.

SPANISH TARIFF LAW

Resolutions of the Havana Chamber of Commerce.

FAVORING RECIPROCITY.

An Address to the Minister of the Colonies—The Financial Condition of Cuba—Other Dispatches From the National Capital.

WASHINGTON, Oct. 21.—An address and resolutions passed by the Havana chamber of commerce favoring reciprocity with the United States have been received at the state department. The address is to the minister of the colonies, and treats of the reform of the Spanish tariff laws. "The financial condition of Cuba is referred to as one which is far from being prosperous and which may become even worse than it now is if, as is possible, the principle of reciprocity is definitely adopted in the tariff of the United States, with which nation our commercial relations are so important, and if the changes made in our tariffs are not such as to correspond with that reform."

After the Spanish-Cuban customs laws have been reviewed and certain changes in them demanded, it is stated to be the unanimous opinion of the commercial bodies of Cuba that almost all the markets of Europe are closed to Cuba's principal product—sugar—since European countries are also sugar producers, so that, as the facts are constantly demonstrating, the greatest market for Cuban goods is the nation whose ports lie at her very door—the United States. The United States are to-day the regulators of the commercial market, just as England is of the money market. The lawmakers of the United States, the address declares, know that by imposing heavy duties upon the manufactured goods of Europe they favor the development of their own industries, compel the well-to-do classes to pay indirect taxes, and that they have no cause to fear reprisals, as European nations have to fear them from each other, because such reprisals would have to apply to cereals, meats, petroleum, etc., which are the very articles that those nations absolutely require.

"Your excellency," the address adds, "has a proof of this incontestable truth in Spain itself, which is par excellence a wheat producing country and which, in spite of that fact, is obliged to make good the deficiency of its own wheat crop by importations from the United States. The question is resolved to a proposition to the United States like this: You give us bread and we give you sugar."

The addresses urges upon the minister of colonies the importance of promptly meeting the situation by a reciprocity treaty with the United States. Especially is this urged to keep abreast of Brazil, who is prompt to take advantage of the opening for a market in the United States.

A Tariff Request.

WASHINGTON, Oct. 21.—Applications have been made to the treasury department by importers who had tobacco in bonded warehouses prior to the passage of the act of Oct. 1, 1890, for permission to withdraw it at the weights ascertained at the time of withdrawal. These applications are based on the second proviso of Section 50 of the tariff act which prescribes that "when duties are based on the weight of merchandise deposited in any public or private bonded warehouse said duties shall be levied and collected upon the weight of such merchandise at the time of its withdrawal.

Assistant Secretary Spaulling says that after a careful consideration of the question, the department is of the opinion that the applications cannot be granted, inasmuch that under the first proviso of the section special privilege is conferred upon merchandise, which, like tobacco, is subject to increased duties under the new tariff act of allowing it to be withdrawn for consumption at any time prior to Feb. 1 next upon the payment of duty at the lower rates prescribed by the old tariff acts. Gen. Spaulding says: "The department must decide that when the importer shall elect to withdraw his merchandise under the first proviso, a re-weighing at the time of withdrawal cannot be allowed for the reason that the goods so withdrawn, by virtue thereof, must be treated as exclusively subject to the provisions of the law in force prior to the passage of said act."

Not Time to Move.

WASHINGTON, Oct. 21.—Attorneys representing the interests of the white settlers in the Choctaw nation were at the interior department yesterday urging that their appeal for an extension of time for the removal of themselves and stock held to be illegally on the reservation be favorably considered. The attorneys state that telegrams received from settlers complain that the time fixed for their removal, Nov. 1, is entirely too short for the necessary preparation of their stock. They contend that if they are compelled to leave on the late fixed many of them will be ruined. The appeal has been pending before the secretary for some time. It is [illegible] that in view of the short [illegible] he will modify his order by extending the time.

BIG EXPRESS DEAL.

Consolidation of the United States and the Adams Express Companies.

MILWAUKEE, Oct. 21.—The Daily Journal prints the following: A rumor has reached Milwaukee, founded upon the best of authority, which, if correct, means the most gigantic express deal that has ever occurred in this country, and means the consolidation of the United States and the Adams Express companies.

For sometime quiet rumors have been circulated around among the officers and general agents of the Adams and the United States Express companies in the west to have negotiations pending looking to a complete consolidation of those corporations. The rumored consolidation is to be in the nature of a merging of the United States into the Adams, by the transfer of stock, much as the St Paul company bought the Milwaukee and Northern railroad.

River Steamboat Purchased.

CINCINNATI, Oct. 21.—A deal of more than ordinary importance in river circles was consummated Saturday afternoon. It was the purchase by the Memphis and Cincinnati Packet company of the steamer Thomas Sherlock from the Southern Transportation line. This means a consolidation of the Cincinnati, Portsmouth and Big Sandy, Louisville Mail line and Big Sandy and Portsmouth companies, also the control of the river business from Cincinnati to New Orleans now covered by the Southern Transportation line. Twenty thousand dollars cash was the price paid for the Sherlock. She will continue in the New Orleans trade under the auspices of the Southern Transportation line for the present.

EXTRA SESSION SITUATION.

The Governor Sends Another Message to the House, But That Body Adjourns Before the Document Is Read—The Senate Not in Session—Other Ohio Dispatches.

COLUMBUS, O., Oct. 21.—There was another political bomb thrown in the house Monday afternoon when that body convened from Saturday's adjournment. It was generally understood that Governor Campbell had prepared a second message in which he recommended that the Cincinnati board of improvements be abolished, and Mayor Mosby, Republican, be given power to appoint a non-partisan board until the April election when the people could elect a new one.

This plan met with opposition both among Republicans and Democrats, but the governor decided to stick by his Mosby plan. The house met, and on motion of Mr. Greyer the substitute for the compromise bill, pending at the time of Saturday's adjournment, was laid on the table till Tuesday. Although it was known that Private Secretary Meeker was awaiting recognition with the governor's message, Mr. Robeson, of Darke, moved to adjourn, and on viva voce vote Speaker Hysell declared the motion carried and rushed down from his desk.

As more Republicans than Democrats were present it is doubted by many if the motion was carried. A look of disgust swept over the faces of the Republicans and Democrats alike to witness the open insult given to Governor Campbell, and they were not backward in denouncing the snub. Secretary Meeker felt the humiliation keenly and reported his treatment to the governor.

When seen Governor Campbell said little, but appreciated the fact that some members had intended the snub for him personally, and said that if the house wanted to read the message now they would have to appoint a committee to wait on him. He will probably send it to the senate Tuesday. There is talk of trying to oust Speaker Hysell from the speaker's chair for the flagrant breach of courtesy. Hysell pretended he didn't see Meeker, but it is known that Assistant Sergeant-at-Arms Moore notified him of Meeker's arrival.

COLUMBUS, O., Oct. 21.—The attorneys of Stanley C. Jones, the Lake county murderer, have filed in the supreme court a motion for leave to file a petition in error. The hearing will be had Wednesday.

BELLEFONTAINE, O., Oct. 21.—A man giving the name of H. L. Williams has been arrested here for the Adams Express robbery on the Cincinnati, Sandusky and Cleveland road on the 3d inst. He is supposed to be a former employe of the Cincinnati, Sandusky and Cleveland railway at Urbana, named Smith. Diamonds and $[illegible] in wet bills were found on him on his return from a buggy ride into the country to the farm of John McCullough yesterday afternoon. His suspicious actions caused Mr. McCullough to notify the sheriff and secure the capture.

Under the barn of St. Clair Jewell, the owner found a lot of empty watch cases, an express envelope addressed to Arch Scudder, the Adams Express messenger, who was robbed Oct. 3, also some of his private papers. The money package was addressed to Simeon Schacht, Sandusky, O., consigned by B. Sultzbach, Dayton, O., and had contained $120.

In addition to these are Arch. L. Scudder's receipt for $400 from R. G. Carter, local secretary, division No. 41, Express Aid society, for contribution No. 209, Sept. 15, 1890. A TERRIFIC EXPLOSION.

An Engineer Blown from His Engine Into the River.

PITTSBURG, Oct. 21.—At 11 a. m. engine No. 1, belonging to the Monongahela connecting railroad, while pushing a train of empty cars along a side track near the casting house of the Eliza furnace (Jones & McLaughlin's) on Second avenue, exploded her boiler with terrific force. Engineer Flaherty, aged [illegible], was blown from the engine cab into the Monongahela river, a distance of 300 feet. His body has not yet been recovered.

Fireman Thomas McCuff, aged 21, was hurled against the brick side of the casting house and instantly killed. Conductor James Foraker, 50 years old, was perhaps fatally scalded. Brakeman Joseph Kerry was frightfully cut and scalded about the head and shoulders, but may recover. Thomas Clark, a laborer, had his legs broken and back injured.

Several men at work in the furnace were slightly injured by escaping steam and flying debris. What remains of the wrecked engine stands reared upon end. The steam dome, sandbox and stack have not been found. The boiler is split almost the entire length and flattened out like a fan. The cause of the explosion is not known.

Twelve People Drowned.

PHILADELPHIA, Oct. 21.—A private cablegram from China received yesterday in this city stated that Capt. Fownes, his child and ten of his crew were drowned when his ship Lizzie C. Troop went ashore on the Loo Choo islands, while bound from Philadelphia via Shanghai to Puget sound. The captain's wife, the mate and the balance of the crew were saved and are safe at the Loo Choo islands.

Stopped in Their Tour.

THE DALLES, Ore., Oct. 21.—Capt. Nicholas F. Skottowe, of the British army, and his wife fell from the railroad bridge Saturday evening, a distance of twenty feet, striking on the rocks and sustaining serious and probably fatal injuries in the case of Mr. Skottowe, who had all the ribs on the right side broken. They were making a tour of the world.

Indians Sick with Mountain Fever.

PIERRE, S. Dak., Oct. 21.—A physician who returned yesterday from a visit to a band of 200 Indians, about twenty-five miles from this place, reports that many of them are sick with mountain fever. Thirteen have already died, and unless relief is afforded soon, the entire band is likely to die.

Accidentally Shot.

NORTH TROY, Vt., Oct. 21.—Maud Clarke, aged 8 years, daughter of A. F. Clarke, visiting at the home of her grandfather, Henry Goodrow, was accidentally and fatally shot yesterday with a rifle in the hands of one of Goodrow's young children.

Three People Instantly Killed.

KEOKUK, Iowa, Oct. 21.—A Keokuk and Western passenger train struck a wagon at a road crossing three miles east of Centerville yesterday. Three people were in the wagon—Isaac Bremen, his wife and son—and all were killed.

The Gale Moderating.

HIGHLAND LIGHT, Mass., Oct. 21.—The terrific gale which began here yesterday is but slightly moderating. A fearful sea is still sweeping the coast, driving the life-saving patrol inland at every full tide.

Candidate for Congress Suicides.

ROCHESTER, N. Y., Oct. 20.—Isaiah S. Emory, the candidate of several labor organizations for congress, was found dead in a room at the Livingston hotel. He had committed suicide by cutting his arm in several places. He leaves a widow and mother.

Two Doors Below Postoffice.

In these times of considerable political yelping about the robber tariff the reader will get more reliable information in the news and advertising columns of the disturbed papers than in editorial utterances. Countless new industries are starting, silent and deserted mills are preparing to start and there are indications of prosperity that are strikingly cheerful. Increased prices are not yet apparent and they do not seem likely. Importers who loaded up heavily before the McKinley bill went into effect find their hands too full, and instead of profitable speculations they are beginning to unload at a sacrifice. Prophecies of dire disaster are failing to materialize, but prices are cheaper from attempted greediness than before the system of "tariff robbing" began. It is a matter of fact the effect of the new tariff has been so discounted, months ago, that very little change in any way is likely to be immediately apparent. Some things may be higher for awhile, but if they are they will be probably come down again—at least all the useful and necessary things will—as our home manufacturers bring up their production to meet the demands of the market.

There is no reason for growling at present, and there is a weariness in springing old arguments on theory musty with age. We have now to note a condition—a practical experiment. If starting the countless new industries and the culture of reciprocity does not result in prosperity it will not be long until a careful change can be made with the wisdom of experience. For Marion alone we all urge more factories, for they mean progress of the highest order. The nation, in a sense, is an aggregation of municipalities, so the increase of factories all over the country means enhanced national prosperity and the betterment of individuals. All business uncertainty is past. The grief of the present is not serious—is a campaign sadness that is meant to appeal for votes. When the election time is over we shall be a happy, prosperous people, testing a tariff framed with the wisdom of the protectionists of the times, and we shall experience the increased wealth, the loss of which has produced some unaffected tears across the pond.

The Democratic papers can be trusted to carefully refrain from comment on the fact that in the municipal election in Chattanooga the republicans have elected eleven Aldermen out of sixteen.—New York Mail and Express.

And the republican papers have nothing to say about Chattanooga republicans "having to give the dam niggers a good show to keep them in line." That is the way the republicans talk in Chattanooga. The colored vote in Chattanooga is not given the republican party from gratitude but for spoils, and the white republicans have their hands full. Chattanooga is rapidly becoming northern in all its ways, however, and the northern business influence has much to do in making it republican.

The trouble that New Orleans is experiencing with the gang of outlaws made up of Italians and Sicilians, who murdered the chief of police, and threaten the mayor and all who attempt to bring them to justice, is another warning, and a dreadful one, against the lax restriction on immigration in this country. New Orleans has a serious affair on hands to rid herself of these red-handed murderers, who regard no law whatever, and her experience will come to other cities in time. If the killing has to be done it would be better to turn a battery of guns on the whole tribe of undesirable foreigners that are threatening that city.

The Fremont News observes that "these are the days when the heart of the office seeker overflows with brotherly love and he finds exquisite pleasure in the shake of the voter's hand. Do not treat him with the irreverence of the employes of a manufacturing establishment in Pennsylvania. They all covered their hands with a sticky black grease and when he came along they gave him the heartiest of shakes." The fellow that only shakes about election time deserves just such receptions. People are pretty well on to the average politician's very "social greeting."

When you find anybody that don't know now from actual experience that the McKinley bill increases the cost of living, he ought to be sent to an asylum —Upper Sandusky Union.

Come now, Mr. Dumm, mention a single thing that has cost you a cent more since the enactment of the McKinley bill than you paid before that time. In conducting so vigorous an anti-tariff campaign you should substantiate broad statements. Name the articles of increased cost within your own actual experience.

Senator Brice is taking a small hand in Ohio politics this week, speaking at Lima and commanding some movements from that point. Mr. Brice may be having a quiet word to say in the solution of the trouble at Columbus.

AN EXPERIMENT WITH A BRIDE.

His Game Didn't Work, but There Is a Time Coming.

A bridal couple took our train from Buffalo for Philadelphia, and it was generally remarked that they conducted themselves as well as could be expected under the circumstances. After about four hours' ride the groom got off at a station where a short stop was made, saying to the bride that he wanted to speak to a man, but saying to one of the boys on the quiet:

"When the train starts I'll get into the car behind, and she'll think I was left. Then look out to see her go into fits. I'll appear on the scene in time to prevent consequences."

The programme was carried out. As the train started a drummer rushed into the car and plumped himself down beside the bride without a question, and in five minutes he was talking about the weather, Buffalo, Philadelphia and a dozen other things. She grew interested at once, and did not even appear to think of her newly made husband. The latter waited a quarter of an hour, and then sneaked into the car. He expected to find her half dead with anxiety, but she wasn't. She was talking in a very animated way, and when he came forward she looked up and said:

"That you, James? I thought you were left. Sit down back there somewhere."

And for two hours he "sat," while that drummer held the fort, and everybody was tickled to death. Later on one of the boys said to him:

"Your experiment didn't work as you thought it would, did it?"

"Not exactly," was the reply, "but you wait! You ought to be around to-night when I lick her with a wet towel!"—New York Sun.

Quite Different.

Justice (to student)—You are accused by Mr. Meyer, who lives across the street from your room, of insulting him.

Student (surprised)—In what way have I insulted him?

Justice—He alleges that you continually call your dog Meyer.

Student—May I be permitted to ask Mr. Meyer a question?

Mr. Meyer—Vat is it you vant to know?

Student—Mr. Meyer, how do you spell your name?

Mr. Meyer—I spells my name M-e-y-e-r.

Student—I thought so. Your honor will perceive at once how groundless Mr. Meyer's charges are when I inform your honor that my dog spells his name M-a-y-e-r.—Texas Siftings.

Revenge Is Sweet.

First Bootblack—You had er quarrel wid Nulsey, Billy?

Second Bootblack—Yes, I had, yer bet, and I'm agoin' to have my revenge, too.

F. B.—[illegible] fer fight him?

S. B.—No, siree. I'm agoin' to stand aside of him when he's a shinin' a gent, and when he gets through I'm agoin' fer say, "Shine, sir?"—Boston Courier.

What Worried Him.

"You look worried."

"Yes," replied Charlie Cashgo.

"Do you find that you can't get out of debt?"

"Well, that isn't the trouble, exactly. My tailor has assured me that I can't get in any further."—Washington Post.

A Wise Conclusion.

"Did you ever think of going on the stage?"

"Yes, at one time I thought seriously of it."

"How seriously?"

"So seriously that I decided not to."—Lowell Citizen.

On approaching the well the oil descends in a shower, and every tree, bush and shrub within a radius of 100 yards is covered with a coating of oil. The greater part of the fluid, however, is thrown into the field, whence it runs in a small rivulet to the creek below, and can be traced as far as the Allegheny river.—Cor. "Of the many preparations before the public for the cure of colds, coughs, bronchitis, and kindred diseases, there is none, within the range of my experience, so reliable as Ayer's Cherry Pectoral. For years I was subject to colds, followed by terrible coughs. About four years ago, when so afflicted, I was advised to try Ayer's Cherry Pectoral and to lay all other remedies aside. I did so, and within a week was well of my cold and cough. Since then I have always kept this preparation in the house, and feel comparatively secure."—Mrs. L. L. Brown, Denmark, Miss.

"A few years ago I took a severe cold which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried Ayer's Cherry Pectoral, which relieved my lungs, induced sleep, and afforded the rest necessary for the recovery of my strength. SHE'S A DAISY.

Scioto Girl, the Handsome Pacer, Wins New Admirers Daily.

The match race between Bailie Hord's admired Scioto Girl and Dallas, finished at Lancaster Monday, was one of the greatest pacing races that has ever occurred in Ohio, and though Scioto Girl lost the race her admirers have greater confidence in her than ever.

The match race was made last Saturday, Scioto Girl having distanced Dallas, who lost his feet, on Friday. The Marion friends and other backers of the splendid mare quickly accepted the bet of $500 to $250 that Dallas could beat her, and the race began Saturday afternoon. Driver Laird did not know of the match but, despite the mare was not in condition, went into the race. The two heats paced Saturday were taken by Dallas and the race continued to Monday. It seemed a sure case that the mare was beaten and her odds were heavy against her.

On Monday morning the Lancaster race grounds were crowded with an excited lot of people. The match race had worked up great interest. The mare won the first heat Monday and the betting became even. Heavy backers of Dallas began to hedge. The fourth heat was called and Scioto Girl won it, after a close and exciting mile, in 2.19¼. Then excitement run wild. Each of the contesting flyers had two heats, and now odds were offered on the Marion mare. The fifth heat was called and the mare got a poor start that sent her in the air. In getting to her feet she lost a half dozen open lengths and this lost her the race. Though she paced admirably and gained steadily and the two flyers finished the last quarter so close that a blanket would have covered both, Dallas beat her by a nose.

Though they lost, the backers of the Marion mare were more in love with her than ever and Driver Laird said his confidence in her was doubled by her splendid performance. The unfortunate start prevented her winning the greatest pace ever raced in Ohio.

Next week the same two horses are to go in a match race, three-in-five, at Blanchester. That it will be a race to attract attention all over the state there is no doubt, and Marion horsemen have faith in the handsome Girl being a certain winner. At any rate she is a daisy, and in fast company.

The Wyman Manufacturing Co.

The stockholders of the Wyman Manufacturing Co., of Marion, recently incorporated under the laws of Maine, with a capital stock of $100,000, met in the agricultural room at the court house Monday evening, and elected the following directors: H. H. Monroe, of Thomason, Maine, W. F. Ellis, of Boston, Mass., J. M. McGee, E. J. Stickle and F. G. Richardson, of Marion. The directors will elect the officers of the company at a future meeting.

The Wyman Co. already has over a hundred orders for machinery of their manufacture in the line of farming implements, and there is every prospect of future success. Plans of building will be submitted to an architect in a day or two. It is not known what the plans of building will be, but there will be a main structure of brick 60x100 or 200 feet, besides other smaller ones. The erection will begin as soon as possible, with a hope of getting in readiness for manufacture to meet spring trade.

Needed Legislation.

She had gone away and left her chewing gum stuck on the back of the sofa, and it was perhaps unfortunate that her little brother saw it. It was certainly grotesque of him to carefully dig out its inside, fill up the cavity with red pepper, carefully plug up the hole and put the gum back in its place. It was little short of calamitous that her beau should call just at that moment in the evening when she had put the gum back in her mouth again. He could not understand her demeanor. He does not even yet comprehend why she danced and shrieked, and finally ran out of the room. There is no question that the bill now upon the legislature providing for the killing of all boys between the ages of 8 and 13 should go through.—Merchant Traveler.

—Columbus Dispatch: Vina Gray, Stella Shipley and May Jones were rearrested Saturday evening by Detectives Peter Murphy and Kramer and charged with suspicion. It will be remembered that Frank Folsom died in a mysterious manner at the house of Vina Gray last week, and that the three women were arrested at the time, but the inquest showed that Folsom had died from alcoholism and the women were discharged. A remarkable incident was that no articles of value were found on the person of the deceased, but since then word from Folsom's brother, at Marion, has been received that he had a fine gold watch and chain and a K. of P. pin. The women were again arrested on suspicion of robbing the deceased. All deny any guilt in the matter.

THE CITY COUNCIL

In Adjourned Session, Monday Evening. Routine Business.

But five members of the city council were present Monday evening at roll call, these being Fairbanks, Kling, Porch, Roberts and Blake. Clerk Davis was absent and Fairbanks was chosen clerk pro tem. Leffler got there in time to assist in the ordinances and Isaleib got in before adjournment.

Chairman Kling of the street and alley committee, reported the bulk, as usual, of the business to be transacted.

The petition of Sam Oppenheimer and August Stark, praying for the improvement of Goose Creek on East street, brought a faint smile to the visages of members, and the matter was referred to the street and alley committee. Kling, however, reported that he had the matter of improvement under consideration.

The plat of Joseph Uncapher's new West Marion addition was presented and its acceptance recommended. An ordinance was afterward prepared, read and passed accepting the plat and dedicating streets and alleys therein named.

A report was read from Chief Fies, of the fire department, noting his action in the suspension of Chas. Berringer as driver of the city hose cart and the selection of George Feidner in his stead. Feidner was appointed by the mayor and confirmed by council.

Postmaster Eagleson was present at the meeting and asked permission to place mail boxes on lamp posts which was granted by motion.

The street and alley committee offered a resolution providing for the construction of sidewalks in front of properties designated, on George, west Center and South streets. The resolution passed a suspension of the rules and was finally adopted.

A petition from citizens along Pennsylvania avenue, reported the old offense of driving cattle over street lawns and sidewalks, to the detriment of their property. After a brief discussion the matter was referred to the city solicitor and marshal.

The committee on accounts reported a number of bills, the majority of which were paid without objection. The one for the payment of the improvement in front of Betsy Mun[illegible]'s property on west Center street, was objected to by Roberts and Fairbanks because it established a bad precedent, but Fairbanks voted for it and it was passed with Roberts in the negative. The other bill was that of Chas. Berringer, which was laid over for investigation.

After [illegible] desultory talk on various [illegible] council adjourned to the next regular meeting.
